

## What is Baptism?

- Baptism is a *sacrament* (a special church tradition) that reminds us that God loves us and that we are children of God!
- Have you ever seen a baptism at church? What do you remember about it?
- Have you been baptized? Ask your family to tell you about the day you were baptized!

You are God's beloved child. God loves you and claims you, and God sends you out to share God's love with others.
